

**PRESSURE
RELIEF VALVE**

**DIRECT ACTING
DUCTILE IRON BODY**

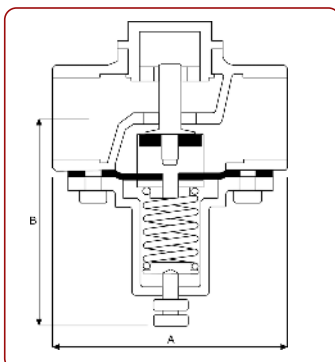

P19

DESCRIPTION

Direct Acting Pressure Relief Valve with Ductile Iron body. The Pressure Relief Valve acts quickly and accurately by means of the pressure control chamber. Outlet pressure is controlled and this pressure is viewed via the integral gauge.

Pressure Adjusting Range:

- 2-8 Bar

SPECIFICATIONS & DIMENSIONS

Model				Orifice mm	Test Pressure Bar	Applied Pressure Bar	KV L/Min.	Weight Kg	Dimensions mm
